God bless you all, the Rose family

### UEW Website

The Utila East Wind launched her website one year ago (October 2006) and has since then been working on revamping the site. We are still working on that and would like to apologize for any inconvenience this has caused our readers. We know we have a lot of readers from all over the world who enjoy reading the newspaper online to keep up to date with what is going on on the island. Since we started with the website the number of visits has increased enormously from 1250 visits in the first month to about 3000 visits now. This means that at least another 3000 people read the Utila East Wind. As this number keeps growing we would like give our advertisers a chance to benefit from this. As of next month we will start excepting advertisements on our website with a link to your website. For more information and prices please contact us by mail [utilaeastwind@gmail.com](mailto:utilaeastwind@gmail.com) or phone us 425-3322.

Another popular feature on our website is our guest book. Many people who are currently not on Utila leave messages in our guest book for friends and family members. Go to [www.utilaeastwind.com](http://www.utilaeastwind.com) and click on guest book in the top left corner of the first page to enter the guest book and read or write messages.

Over the next few months we will keep working on the website. If you have any suggestions, pictures or anything else you would like to share with us please contact us!

### Utila tourist trail used as dump

Residents along rocky hill road are concerned with large amounts of garbage being dumped alongside the road to Pumpkin Hill. The road is the trail taken by tourists and residents alike to one of Utila's most scenic areas. Tourist taking this road could well be mislead into believing they have the wrong road as it looks like the municipal dump.

### Road Accident

Three young people were hurt in a road accident at around 11.30pm on Friday the 7th September. The youngest of the 3 received the worse injuries and was treated at the centro de salud before being taken to La Ceiba for further treatment.

### Plane hurt

A plane owned by one of the proprietors of Utila Realty was shot at while parked at the airport on Utila. The owners moved the plane to La Ceiba where it is being treated for 5 gun shot wounds to the side!

### No change

Despite the fact that ALL ages are riding motor vehicles in town the age limit for driving on Utila is still 18 years.

### Double shooting

German, Tony Vorleiter, owner of Lagun Marina was shot dead on Independence day on Avenida San Isidro in La Ceiba. His daughter was also hurt and is in hospital but expected to make a full recovery.

### Single shooting

Honduran Marco Antonio Bonillo was found dead on the 16th of September in the lagoon at Palma Real outside La Ceiba. He died from gunshot wounds.

### Can't work today, have to go to the bank!

HSBC. Honduras's slowest banking centre is what the people are saying. It's not just the speed of things that's the problem. Did you know that you can't use your cell phone or camera in the bank? Telling you not to is about the only thing that happens with any speed and efficiency!! Did you know that you can't change \$'s without I.D. or that they ONLY accept one type of traveler chq, or that you can use VISA but not master card? If you do know then you probably had to line up for well over an hour to find out as NONE of this information is posted on the wall! That would make way too much sense! Most working people need to use their lunch break to buy UPCO but just because you can't have lunch doesn't mean that the teller behind the ONLY counter selling UPCO can't have his! No, he is going to lunch even if 10 people need lights and no other counter sells them! The other counters might have no customers, but the 10 waiting to buy UPCO still have to wait as no one else is going to work the UPCO counter in the tellers absence. It seems that all logic goes out the window when you walk into HSBC. Perhaps more is needed than a change of name!

NB. If you need to cool down slip into the ATM, it never has money in it but it ALWAYS has A.C.
